**Financial and Operating Performance****NOI**

- > All property NOI for the three months ended September 30, 2014 decreased over the same period in 2013 by \$0.1 million.
- > Same property NOI, which removes the effect of the REIT's acquisitions, decreased by 4% for the three months ended September 30, 2014.

**FFO**

- > FFO for the three months ended September 30, 2014 decreased by 15% over the same period in 2013.

**AFFO**

- > AFFO for the three months ended September 30, 2014 decreased by 10% over the same period in 2013.

**Occupancy**

- > Occupancy at September 30, 2014 decreased slightly to 96.0% as compared to 96.4% occupancy at December 31, 2013, and 96.1% at September 30, 2013.
- > Of the leases that expired during the year ended December 31, 2014, 417,227 square feet have been renewed or replaced with new leases with a further 86,858 square feet currently in the process of being renewed or committed to lease. The balance of 44,161 square feet, comprising seventeen tenancies, will require new prospects.

**Dispositions**

- > During the third quarter of 2014 the REIT sold a small portfolio of 3 Canadian Tire properties to CT REIT for \$34.9 million.
- > The REIT's portfolio now consists of 36 properties totaling approximately 2.5 million square feet of GLA.

**Assets**

- > The REIT's total assets as at September 30, 2014 decreased by \$36.8 million over the balance at December 31, 2013. This decrease was a result of the sale of 3 Canadian Tire properties, and fair value losses recognized on the REIT's property portfolio.

**Capital**

- > In the third quarter of 2014 the REIT has fully repaid its \$15 million outstanding loan with Firm Capital.
- > Overall, the REIT's weighted average effective interest rate on mortgages was 4.99% at September 30, 2014 an increase from 4.34% at December 31, 2013 and from 4.48% at December 31, 2012, with a weighted average term to maturity of approximately three and a half years.
- > Over 90% of the REIT's debt is at fixed rates, and of that amount, only \$70.4 million matures over the next two years and that debt is at greater than current market rates. As a result, the REIT should not have exposure to near-term interest rate increases for the foreseeable future.
- > At September 30, 2014 the REIT has a debt-to-gross book value ratio of 66.8% (December 31, 2013 – 66.7%),
- > Interest coverage and debt service coverage ratios changed marginally in the third quarter to 2.09 times and 1.36 times, respectively, compared to 1.99 times and 1.38 times, respectively, at September 30, 2013 results.

Distributions per unit exclude the 5% bonus units given to participants in the Distribution Reinvestment and Optional Unit Purchase Plan.

(3) Total distributions as a percentage of FFO/AFFO.

(4) Represents distributions on a cash basis, and as such, excludes the non-cash distributions of units issued under the Distribution Reinvestment and Optional Unit Purchase Plan.

(5) Cash distributions as a percentage of FFO/AFFO.

(6) See calculation under "Debt-to-Gross Book Value" in "Part IV – Results of Operations" in the MD&A.

(7) Calculated on a rolling four-quarter basis. See definition under "Mortgages and Other Financing" in "Part IV – Results of Operations" in the MD&A.

(8) Represents the weighted average effective interest rate for secured debt excluding debentures and credit facilities.

(9) Certain comparative figures have been reclassified to conform with the current year's presentation.

<b>Total</b>	<b>\$ 30,112,794</b>	<b>\$ 243,563,849</b>	<b>\$ 273,676,643</b>	<b>5.03%</b>

The REIT's current weighted average term to maturity on mortgages payable is approximately 3.5 years. The weighted average contractual interest rate of the mortgages payable is 5.03%.

## Debentures Payable

In March 2011, the REIT issued convertible debentures of \$28.8 million that mature on March 31, 2016. The annual interest rate of these debentures is 8.0%.

In September 2012, the REIT issued convertible debentures of \$34.5 million that mature on September 30, 2017. The annual interest rate of these debentures is 6.0%.

In March 2013, the REIT issued convertible debentures of \$23.0 million that mature on March 31, 2018. The annual interest rate of these debentures is 5.5%.

## Weighted Average Cost of Debt

WACD - Considers the weighted average effective rate of mortgages, credit facilities and debentures.

Interest coverage and debt service coverage ratios are as follows:

	Rolling four quarters ended	
	Sep 30th, 2014	Sep 30, 2013
Interest coverage ratio <sup>(1)</sup>	<b>2.09</b>	1.99
Debt service coverage ratio <sup>(2)</sup>	<b>1.36</b>	1.38

(1) Interest coverage ratio is calculated on a rolling four-quarter basis as EBITDA divided by interest expense (before amortization of financing fees included in interest expense), where EBITDA is net income before fair value gains or losses, interest expense, incentive unit option compensation expense, depreciation and amortization, other transaction costs, and bad debt expense. EBITDA is a non-IFRS financial measure of operating performance.

(2) Debt service coverage ratio is calculated on a rolling four-quarter basis as EBITDA divided by debt service, where debt service is principal repayments plus interest expense (before amortization of financing fees included in interest expense).

The interest coverage and debt service coverage ratios for the rolling four quarters ended September 30, 2014 decreased in comparison to the same prior year period due to new mortgages, a convertible debenture offering and draws on the REIT's credit facility. The impact of these was partially offset by net income contributions from newly acquired properties.
